### And What Have You

By BOB CRAIG

Well it looks like we have just about used up another summer, haven't we. Band school is underway this week, football workouts start next week and school gets underway the following week.

Although it has been going on for some time now, we still find it hard to get used to the idea of school starting in August. Don't suppose it really makes much difference though since you either start early and get out early or start late and get out late.

We received the following letter to the editor this week that we feel justifies including in this column.

Dear Editor:

I would like to express my appreciation to all whom I called upon to work in Little League this year.

Our Little League officers, coaches, managers, announcers and parents were all willing to do their share. The field looks better than it has in years. The added lights, flags, flagpoles and newly painted fixtures were all possible because of donations and extra work by those who were willing to give to the Little League. All these things makes you proud of your community.

We had a good year, good teams, coaches and managers. We also had an All-Star Team that we are real proud of.

Thanks again for all who had a part in a successful year.

Mrs. John W. Holtz

We also received the following letter changing the address of Mr. and Mrs. Larry Butler to Monahans where Larry will be coaching this fall. While the letter may not be much interest to you readers it is good for this writer's ego and therefore is printed below:

Dear Bob:

We certainly enjoy the paper by keeping up with all that happens in Hamlin. Your editorials are extremely enjoyable to read. The truth and sincerity you put into them lends to pleasant reading. If you are ever through Manahans, please stop and see us, you are always welcome.

Sincerely,  
Larry Butler

As a dwindling minority, the American farmer is fast approaching the time when he must start working on a better public relations program. This is evident from reading the daily newspapers and seeing one segment of the economy after another jump on the farmer for high prices and government checks.

The following editorial from the Machinist, a union newspaper, is a good case in point. The editorial classes farmers with welfare deadbeats.

While this is outrageous, it does prove that farmers had better do a better job with their public relations and quit bickering among themselves.

Said the editorial:

"Most union members will cheer the Senate Finance Committee vote to replace relief payments with a guaranteed job for all able-bodied adult welfare recipients except mothers with children."

"It's hard for anyone to understand why some Americans should have to work to support others who are capable of working."

"Now that we are finally requiring able-bodied citizens to support themselves, it's important that we apply the principle fairly. It would be unfair, for example, to expect only the poor to work for their government handouts. There are others who are drinking at the government tap who

### LETTER TO EDITOR

### Jaycee-ettes Express Thanks

Dear Editor:

The Jaycee-ettes wish to say thank you to those who make it possible to have the annual beauty pageant. It is through the support and cooperation of all the sponsors, the Hamlin Schools, the Hamlin Jaycees, the Hamlin Herald, and Celotex Corp. that we are able to provide this event. Also our thanks go to the judges, entertainment, photographers.

Of course there could be no pageant without the contestants and it is because of the joy they receive that we are glad to continue this annual event. We regret that we didn't have a "Miss Pied Piper" this year, due to lack of participation. We hope in the future there will be enough interest to continue this project.

We appreciate the town's support of this project and all others we attempt because it is our desire to improve our town.

## Spacemen Given Newly Published Bible

The entire complement of 43 astronauts stationed at NASA in Houston have been presented personalized, autographed copies of the recently published "Living Bible."

Translator of "The Living Bible," Kenneth N. Taylor, was invited to the Base to make the presentations by Apollo XV Lunar Module pilot, Colonel James B. Irwin. Colonel Irwin was the moonman who during his lunar explorations in August of last year, carried his Bible with him to read while on the moon.

Taylor, the 54-year-old theologian who spent the last 16 years of his life translating (he calls it paraphrasing) the entire Bible into a contemporary, readable style, spent a day at

the Astronaut Office Building in conversation with various astronauts as he made individual presentations of "The Living Bible." Taylor explained to several astronauts who asked, that he did his paraphrase of "The Living Bible" on a "thought-for-thought" basis, rather than on a "word-for-word" basis like other Bibles have been prepared. Taylor explains that the paraphrase style flows better, conveys the meaning clearer, and eliminates Greek and Hebrew grammar styles which are difficult for Americans to read.

Sales figures seem to bear Taylor out, as two million copies of "The Living Bible" have been sold since the book hit the market in September of last year. Another 1/2 million copies have been sold in England, the home of the popular King James translation.

Irwin became impressed with "The Living Bible" after being introduced to the Book by his minister, Dr. Bill Rittenhouse, pastor of the Nassau Bay Baptist Church, located just off the NASA Base. Rittenhouse suggested that "The Living Bible" would be ideal for the Irwin family's evening devotions at home. The astronaut's four children responded favorable to "The Living Bible," prompting Irwin to invite Taylor to give copies of the new publication to his 42 contemporaries in the space program. Although Irwin was ground bound during the Apollo XVI space shot, he played a most important role in the program. He was designated CAPCOM (capsule communicator) for the flight, and all communications from ground to capsule, and from capsule to ground, were routed through Colonel Irwin. It was Colonel Irwin's voice that television and radio listeners heard when communications between the capsule and ground were broadcast to the public.

It was appropriate that Irwin instigate the Bible presentations as he is a sincere and dedicated student of the Bible.

## FROM THE FILES . . .

FORTY-THREE YEARS AGO  
(July 19, 1929)

That new interest and activity is awakening in the Hamlin-Fisher County Oil Field is indicated by the new operations now underway.

Tuesday the people of Texas were given a chance to say whether or not they were willing to grant the governor of this state a salary amounting to \$10,000 instead of \$4,000. The vote was ridiculously light all over the state, but the latest returns indicate that the salary raise was granted by a vote of about 21,145 for and 10,134 against. In Hamlin the vote was 35 for the raise and 54 against.

The bonds for the new lake are to be paid for from the water revenue, and in order to meet this additional expense and pay the operating expenses of the water department we are forced to raise the minimum water rate. Therefore, beginning with August bill the minimum water rate will be \$2.00 per month.

TEN YEARS AGO  
(July 19, 1962)

Three members of the Hamlin Future Farmers of America Chapter are attending the State FFA Convention in Fort Worth, July 18-20, according to Ronnie Teichelman, president of the chapter. The three day meeting of representatives of over 900 FFA chapters throughout the state will include the awarding of advanced degrees, scholarships and awards to outstanding members of the organization.

The Hamlin Housing Authority opened bids Tuesday afternoon on the 20 units of "Low Rent" housing to be built here. The Authority accepted the low bid of King and King Inc. of Odessa subject to approval of the Public Housing Authority of Fort Worth.

Showers during the past week here totaled only .15 at the Hamlin pump station but the lower temperature has been a comfortable relief. After several days of 100 degrees plus temperature the cloudy weather dropped the temperature to around 80 Monday afternoon.

TWENTY YEARS AGO  
(July 18, 1952)

Hamlin's corps of approximately 50 school teachers will get an across-the-board \$200 per year increase in salary

effective when the 1952-53 school term opens in September.

More scattered showers in the Hamlin area have added little moisture but lots of apprehension for people hereabouts during the past week.

Bids for construction of the water pumping plant that will force water from Lake Stamford to the city of Stamford for supplying that city and Hamlin with water will be opened Tuesday, July 29, it was announced last weekend.

Two members of the Hamlin chapter of Future Farmers of America and two sponsors of the chapter left Tuesday afternoon for Dallas to attend a four-day annual state FFA convention that opened Wednesday morning.

A quartet from Anson will be the featured attraction at the Dovie Church, five miles east of Hamlin, at the regular weekly singing this (Friday) evening.

do nothing in return.

"For example, how about all those wealthy farmers who are sharing more than three billion dollars this year for not growing crops? Shouldn't they be required to perform some public good in return for their government welfare checks?

"It's un-American to require something of the poor and unorganized unless we are prepared to ask equal sacrifice from the strong and the wealthy. Equality under the law is the first principle of democratic government."

While the people living in the rural areas know that this is not a fair picture of the American farmer, unfortunately it is the view of most urban Americans.

It does seem strange to us however, that the Machinist editorial writer singles out farmer but fails to mention the union worker who draws food stamps and unemployment compensation while he is striking for higher wages.

## for the Days AHEAD

Even now trees are being felled, cords of wood cut, in preparation for cold winter days which are sure to come. Woodcutters are preparing for the days ahead, to bring comfort against the cold.

To prepare for our future "cold days," periods of sadness, times of bereavement, and times when we are tempest tossed, begin now to attend church regularly and let God, His Church, and His people help you to meet any situation in life.

*"Blessed be God, even the Father of our Lord Jesus Christ, the father of mercies, and the God of all comfort; who comforteth us in all our tribulation, that we may be able to comfort them which are in any trouble, by the comfort wherewith we ourselves are comforted of God."* 2 Cor. 1:3, 4.

# Neinda Philosopher Poses Problem for Airlines Already Worried Over Hijackings

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One foresees a problem that's going to be hard to handle.

Dear editor:

There's one problem coming up in connection with airplane hijacking that the airlines and the government apparently are overlooking.

Here's the situation: the first hijacker several years ago, as I recall, demanded something like \$50,000 and got it. Then a little later another demanded \$100,000, and that too was produced.

Getting bolder, on account of inflation I guess, the next one demanded \$250,000 and got it. Recognizing a trend when he saw one, the next hijacker demanded \$500,000 and collected.

It might try borrowing it from Washington, but Washington is so far behind on its installment payments now it's in no shape to take on anything else. One more item added to its monthly payments and everything it's got might be repossessed.

The only solution I can figure out is for the airlines to post signs at airports in big letters saying: "Attention, Hijackers, Positively No Ransom Ex-

What is the airline going to do?

It can't say, go ahead, blow up the plane. And yet how is it going to round up a billion dollars?

And just last week a group of hijackers asked for a cool million dollars, and that too was handed over.

Now here's the problem that's looming up: suppose the next hijacker demands 5 million dollars, the next one 10, and then finally somebody gets on board a plane loaded with say 300 passengers and demands ONE BILLION DOLLARS.

ceeding 1 Million Dollars Can Be Paid. Limit One To A Customer."

I don't think this will do any good, but then nothing else is working either.

Yours faithfully,  
J. A.

# Old Glory

By Bernice White

Blue Monday seemed a little brighter this week. Not because of sunshine, but because we got a half inch of that much needed rain of the night before. North of town .7 inch was reported.

A two car auto accident east of Old Glory last Friday evening involved Mr. and Mrs. Rex Hoag and daughter of Salt Lake City, Utah, when they collided head on with a pick-up driven by Jim Pope of Haskell.

The accident occurred on a narrow road that leads to the Highway at the Rule river bridge. Mr. Hoag and his daughter were taken by ambulance to the Haskell Hospital, but no serious injuries have been reported; however there was heavy damage to the car and pick-up reported.

The Hoags were here visiting his parents, Mr. and Mrs. Carl Hoag, north of Old Glory when the accident occurred. Mr. Pope is a gopher for an oil company and works in this area.

Get well wishes are extended this week to Mrs. Beno Hertenberger who entered the

Also to Clif Gholson, who is in Hendricks Memorial Hospital in Abilene recovering from injuries received while riding horse-back working with his cattle near Old Glory. We hear reports that the doctors may release him today.

Among those from here who have visited with Mr. Gholson were Mr. and Mrs. B. A. Erdman last Sunday afternoon. They also visited with Mrs.

### Milburn Wink Attending Tech Short Course

Milburn Wink, local vocational agriculture teacher, is attending a three-day non-credit short course in Lubbock this week. The short course, sponsored by the Agricultural Education Department of Texas Tech University, is on the repair of small gasoline engines.

The course is being conducted by Dr. Lewis Eggengerger of the Agricultural Education Department.

**The School Boy**  
But to go to school in a summer morn,  
O' it drives all joy away:  
Under a cruel eye outworn,  
The little ones spend the day  
In sighing and dismay.  
How can the bird that is born for joy  
Sit in a cage and sing?  
How can a child, when fears annoy,  
But droop his tender wing,  
And forget his youthful spring?

— William Blake

The instruction of home economics has come a long way from the old-fashioned cooking and sewing classes often conducted in the school basement.

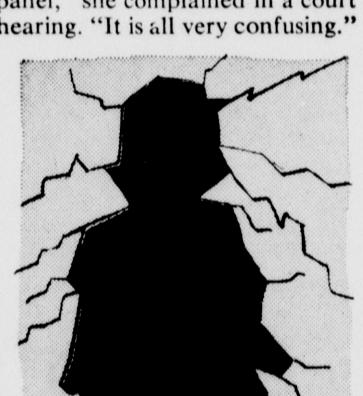

### THE FAMILY LAWYER

#### Walking Through Glass

Leaving her dentist's office, Martha headed for the lobby of the building. But as she reached the exit, she mistook a glass panel for the door and pushed right through it.

Cut and bruised, Martha decided to seek damages from the owner of the building.

"The door is glass and so is the panel," she complained in a court hearing. "It is all very confusing."

But the building owner saw no good reason for her confusion. He pointed out that the door had a metal frame, a hydraulic mechanism, and a handle—all plainly visible. Result: Martha's claim was turned down. As one judge put it:

"The injury was due to her own lack of care. She was the author of her own misfortune."

The growing use of glass in homes and buildings has led to numerous lawsuits in which someone inadvertently "walked through glass." In homes alone, such accidents happen about 40,000 times a year.

How alert does the law expect you to be in discerning danger? One key factor, as in the case above, is the presence of visible features that should put a reasonably careful person on guard.

Another factor is your familiarity with the premises. A woman shopper barged into the glass panel beside the door at her neighborhood supermarket. But a court rejected her damage claim largely on the ground that she had been using the same door for years without any difficulty.

However, in other circumstances, inattention may well be excused. Consider this case:

An eight-year-old child, visiting at the home of some family friends, ran into a sliding glass door. But it seems that the lighting was poor, and that the door kept spotlessly clean at all times—had no telltale fixtures to make it noticeable.

A court accordingly found no fault with the youthful victim. Ordering the home owner to pay damages, the court said he could easily have called attention to the hazard with a strategic strip of colored tape.

percent statewide, but this was less than the 5.3 percent rate of June, 1971.

Actually, the University of Texas Bureau of Business Research reports, the Texas economy is getting better and better, and 1972 second-quarter and first-half performances of economic indicators ended on a solid upbeat. No boom is yet in sight, however.

#### SHORT SNORTS

A special election is set for September 16 in District 46, Place 3 of Brooks, Cameron, Kenedy, and Willacy counties to select a successor to Rep. J. A. Garcia Jr. of Raymondville who resigned.

Agriculture Commissioner John White warned early destruction of cotton stalks in the Lower Rio Grande Valley is

necessary to fight the pink bollworm menace.

New information on Texas fairs, fiestas, and celebrations during August and September is available from the highway department.

Land Commissioner Bob Armstrong has been elected secretary of the Western States Land Commissioners Association.

#### NEW BANK CHARTER

Applications have been filed for Woodway (McLennan County) and Addicks (Harris County).

Four minor party lawsuits to get on the November general election ballot have been set for hearing before three federal judges in San Antonio September 7.
